

WRAPTITE 387

Zero VOC Primer

WRAPTITE 387 is a black pipeline primer with 0 lb. VOC (volatile organic compounds) per US gallon. This primer can be applied by machine or brushed on by hand and helps to promote a high bond of WRAPTITE pipe coating products to the pipe in the oil, gas, and water industries.

Typical Benefits:

- Environmentally friendly with 0 lb. VOC per US gallon
- Improves bond of WRAPTITE coating products to the pipe
- Excellent shelf life
- Performs well over a range of operating temperatures
- Impermeable to water and oxygen
- Excellent compatibility with coal tar, fusion bond epoxy, asphalt and polyethylene pipeline coatings

Typical Applications:

- Primer for new or smooth pipe surfaces

Technical Properties:

- Base Adhesive System: Synthetic rubber and resins
- Solvent System: Para Chlorobenzotrifluoride/Acetone
- Total Solids: 20%
- Viscosity: Thin Syrup
- Flash Point: -20°C (-4°F)
- Color: Black
